

DEPOT presents: this year's four Advent calendar types

Christmas countdown with 24 days of heart and passion

Niedernberg, November 3rd 2022 – It's the day we all look forward to! In many households, it's as much a part of the pre-Christmas period as the wreath with the four softly glowing candles that emit so much warmth: the Advent calendar. Sparkling eyes in the early morning are a beautiful gift. DEPOT is providing some assistance so that the much-loved tradition can be kept alive this year, too: little tips for individual Advent calendars created with love. Whether it's little doors, little sacks or small boxes – with these Advent calendars you can look forward to 24 days of surprises.

Type 1: Pastel Style

The magical little paper bags are delightfully colorful. Available in six carefully coordinated colors, they can be filled with anything. The set of pegs ensures that they can be arranged just right. The 24 little bags can be strung up next to each other on a taut line, for example – with the black retro-look pegs there to secure them.

Type 2: Red Meets Kids

The main thing is, it comes from the heart. Or in this case from the Glamheart paper bags, where one color dominates – red. The color of love meets playful ideas and inspirations for curious kids, who of course become even more curious during the Advent period! Together with the 56-piece Christmas sticker set, these "heart bags" can be beautifully decorated. In addition, these three decorative animal baubles are very hip: donkey, cat and dog.

Type 3: All Black

These black paper bags are as dark as a December night and have a touch of mystery about them. Like the stars in the clear winter sky, they'll make your eyes light up, surrounded by the white, decorative light-as-a-feather wings. There's something for the taste buds too, thanks to the cute chocolate umbrellas that come with this Advent calendar. And, because the bags have to be fastened, there are these metal pegs.

Type 4: Back to Nature

One, two, three ... and so on. The set of letters is handcrafted and made of 100 percent linen, and consists of 24 small numbered bags. The arrangement can be easily combined with the 50 mini LED fairy lights. The pine garland goes well with this.
