## **Christmas is approaching - and a decorative item is coming into focus**

### **Baubles! Always a splendid thing with DEPOT**

**Niedernberg, 17 November 2022** - Exactly 25 years ago, when DEPOT was launched, they had their regular place in flats and houses at Christmas time: Baubles, usually red, belonged on the tree. Today, a quarter of a century later, one would say: Baubles are (still) a must-have. And not only as an enrichment of every festively decorated Christmas tree. What is "in" this winter is revealed by the leading decor and furnishing specialist.

#### **Festive arrangement with glamorous accents**

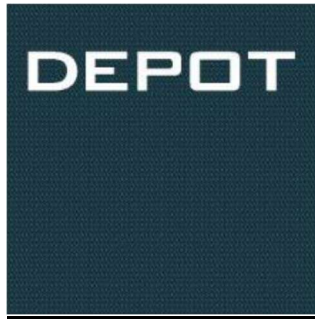

A hanging baubles arrangement transforms any room into a very special place. Like a glamorous cloud, the baubles are enthroned above the heads in discreet, elegant colors and can be attached either directly to the ceiling or, for example, to an illuminated wreath. For this very special look, a mixture of the glass Christmas bauble set and some special highlights such as the Noble, Stars 4Ever and Glimmer baubles is a good choice. The perfect accompaniment for the round protagonists are the artificial branches of grass and eucalyptus, which can be tied together with a fine satin ribbon.

#### **Bordeaux sets noble accents on every table**

The color of love - it cannot be missing at the festival of love. On the solemnly decorated table, baubles in Bordeaux tone can be put in the limelight. The bright color creates mood and atmosphere, optionally surrounded by green fir branches. DEPOT presents the glass Christmas baubles in different sizes and quantities: 15-piece 2 cm diameter, 15-piece 3 cm diameter, 12-piece 6 cm diameter and 6-piece 8 cm diameter.

#### **Heartfelt messages as elegant decoration**

Decorating your own four walls is a highlight that brings back memories and anticipation at the same time. All the nicer when you then convey warm messages, as with the glass heart grandpa or heart mom. Handmade and painted hanging colorful tree ornaments Van. Dachshund Dario and goose Gesine create a Christmas atmosphere in an animalistic way. But not only on the Christmas tree make the various pendants a good figure. Also as a free-hanging decoration, for example, the candy cane made of fine glass will enrich any festively decorated living room.

### **Jingle bells in glamorous boho style**

The cozy warm boho style has long conquered our home - and around the year. No wonder, then, that he also moves in for the feast of feasts. Old pink or

cream, why not both shades: The glass Christmas baubles Glimmerpearls look magically attractive and the Glitterstripes cannot be missed. Not far from it on the tree hang the Circle Stripes. The twelve-piece Glimmer mix. Artificial stem flowers, such as pampas fronds or large feathers like Fluffy, which are inserted simply but highly effectively between baubles and branches, also provide plenty of glitz and glamor.

Matching the dreamy Christmas tree styles DEPOT together with massa haus raffles a dream house voucher worth 129,999 euros. All further information and the conditions of participation can be found [here](#).
