

Winter Outdoors – Feel-good Moments Indoors

DEPOT now makes your home really cosy

Niedernberg, 13 January 2023 – Winter still has us firmly in its grip. With no end in sight. However uncomfortable and changeable it is outdoors – it's the perfect excuse to make yourself really cosy and snug indoors. If not now, then when? Take a look at the outlets of Germany's leading décor and furnishing specialist and [DEPOT's online shop](#) to learn how you can "warm up" the coldest time of the year with magical moments of well-being and happiness. A small foretaste to whet your appetite for more ...

100% sheep's wool – 100% style

This is perfect for the first gentle steps out of bed in the early morning, as a stylish decorative element on your sofa – such as the new comfortable velvet three-seater [Sienna](#) – or positioned cosily in front of your home's fireplace: the large [white sheepskin](#) and its counterpart in a [shade of caramel](#) are guaranteed to make you feel right at home. 100 percent sheep's wool, 100 percent natural – and 100 percent style.

Cushions in an abundance of covers and fillings

Cream or pink? The main thing: stripes. A quick look at the new blanket and cushion set tells you just how snug the two-piece set must be. Cold feet are also a thing of the past with the light and smart [Pure](#) blanket, which comes in no fewer than three colours: grey, lilac and natural. The [Teddy](#) cushion cover is also a great favourite this winter – perhaps also because of its promising name. The Lino cushion cover – available from DEPOT in ten stylish colours – can also be beautifully combined with furs and blankets. As well as the right inner life – the new [inlet](#) makes your cushion pleasure complete.

Beautiful radiance and wonderful fragrance

So what's still missing to complete the cosy atmosphere? The right ambient light. Soft candlelight to warm your heart and soul for [tea for two](#), e.g. this small tealight candle holder. Our [Bubble](#) LED candle spreads cosiness, while our porcelain [Casa Basso](#) illuminates your home. If you're looking for a pleasant floral fragrance to accompany the light, our Ceramic Peony scented candle offers just that for up to 15 hours. Cosy times with DEPOT.

About DEPOT

Gries Deco Company GmbH, with its powerful DEPOT, ipuro and ROOMS by DEPOT brands, is today a major décor and furnishing specialist in the German-speaking world. The company currently employs around 6,500 people and has 500 DEPOT stores (including partners) across Germany, Austria and Switzerland.
